Subject: Firearms hearing

Dear judicial committee

I do not support the new bills that are trying to get passed for stricter gun control. I feel like our rights as legal and responsible gun owners who just want to protect our loved ones and family and just enjoy the shooting sport are having our rights infringed on due to these laws. Some of the most crime ridden and cities with the highest murder rate are ones with very strict gun control. Felons to not follow laws nor do they care about others and will keep breaking the law while us legal gun owners are forced to endure stricter laws that make it harder for us to protect our families. Thank you for your time
